Lightning

At outdoor dinners, illumination is a must. The lights, in addition to decorating the space, create a totally magical atmosphere.

We create a warm atmosphere, highlighting the natural beauty of the environment

Each wedding and each space suggests a different and customized type of illumination; from the light balloons that are confused with the Moon, garlands that recreate being beneath a canopy of stars, soft fabrics that bathe in color ... even the illumination of main wall and vegetation.

Main Services

Music

Music is a main element in weddings, it allows the emotion to flow during all the moments of the wedding making each of them special and to remain in the memory and relive them.

We offer you live music options and, the always successful, Dj service with whom you can customize your musical selection and choose which song will accompany you at any time without worrying about the technical equipment of each area or the party lighting.

Children's Entertainment

Offering fun and entertainment to the little ones, implies providing greater tranquility and enjoyment to the guests; being one of the services most valued by all.

The entertainers will accompany them during the banquet to supervise the tasting of their menu and then they will accompany them to perform various games and activities adapted to each age range such as workshops, face painting, balloons.

The calculation will be 1 entertainer for every 10 children.

The entertainment service does not involve a babysitting service; the tutors must have the responsibility at all times

What do they say about us?

Georges & Rocío 04/06/2017

"We only have good words for all the treatment received, from the first moment we loved the attention received by both Nuria and Alberto. They have always been working for everything to make it perfect and that's how it was. The atmosphere in the gardens is dreamy. We choose to have a cocktail party where our guests had a great time. Very good appetizers and attentive waiters so that no detail was missing. The main room was very bright and the menu simply spectacular...I have not words. To top off our day we have David (DJ). He put all the music we were asking for ... Thank you Nuria, Alberto, David and thanks to all of you who helped us to have our day"

Iván & Celia 16/09/2017

"It was and would be our first and only option. A place with charm and fabulous decoration and lighting. The food was delicious, all the guests were delighted and the magnificent treatment by the whole team. To thank Nuria and Alberto and, of course, all the waiters, for their attention, dedication, kindness and for helping us in everything. For sure. A complete success!
